

**Report from the Maryland Health Benefit Exchange
about Maryland Health Connection,
the state-based health insurance marketplace**

BALTIMORE (April 11, 2014) — As a reminder: Marylanders who tried to enroll by March 31 can still complete their application at MarylandHealthConnection.gov for health coverage that begins May 1.

These consumers will have the opportunity to complete enrollment in a qualified health plan by April 18. Our connector entities, call center, and authorized insurance brokers continue to provide enrollment assistance. Medicaid enrollment is year round.

Marylanders who enrolled in qualified health plans effective April 1 must complete payment with their insurance company by April 15. If they have not received a bill, they should call the insurance company to pay.

By the Numbers

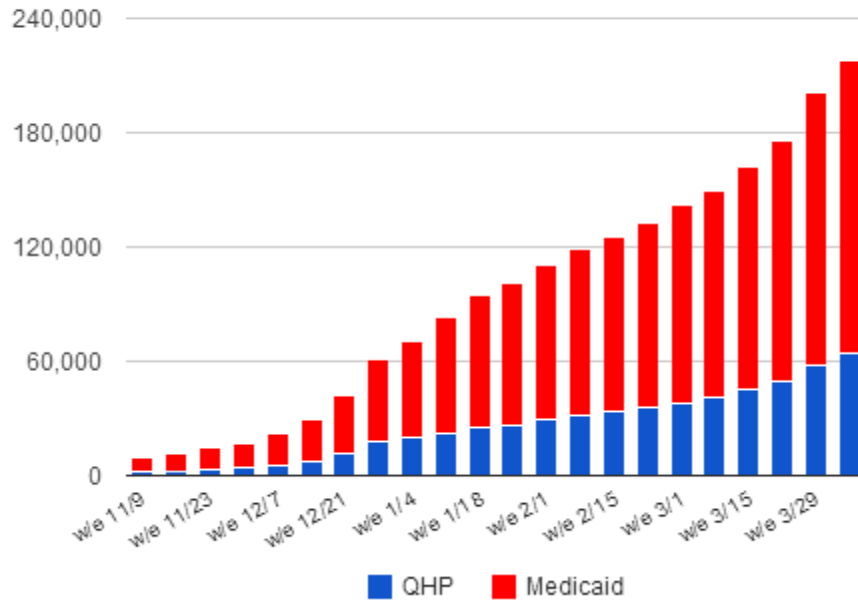

Through April 9, 2014, 65,186 Marylanders have chosen to enroll in qualified health plans through Maryland Health Connection. As of April 8, 248,495 have gained Medicaid coverage in 2014 and remain active in Medicaid.¹

Enrollments in qualified health plans since March 31 include 2,229 enrollments completed with assistance from a dedicated team responding to Marylanders who contacted our 1-800 hotline and other channels to request additional help.

By Monday, 4/14, Maryland Health Connection will have called and/or emailed all consumers who expressed interest in help to enroll for May 1 coverage.

¹ As noted in previous reports, some of these applications may have pending verifications before coverage is effective, others may be duplicates, and others may turn out to already have Medicaid coverage.
